Dr. Joshua Lederberg
Osborn Botanical Laboratory
Yale University
New Haven, Connecticut

Dear Joshua:

Many thanks for your interest ⁱⁿ the differential division program, and for clearing up our differences regarding Bloch's work. I still can't believe that no one has done work similar to that Duncan is now doing here on pollen, but neither he or I can find any evidence of anyone else tackling it.

Kindest regards and good wishes. Come and see us if you ever get this way.

Yours,

C. Leonard Huskins
